

ter Hürne

The comfort floor with the strength of the soya bean

My Sōya Luxury Vinyl Tiles

„New Generation“ to complement ter Hürne standard Sōya Luxury Vinyl Tiles

NEW GENERATION

More than just healthy

We use a plant-based plasticizer for our luxury vinyl flooring. We obtain it from an oil also used in the food industry – soya bean oil.

Bio-based soya bean oil provides our floors with the best properties. They are soft, pleasantly elastic and unobtrusively quiet, while remaining robust and durable.

The power of the soya bean makes your luxury vinyl flooring particularly low-emission and gives you a feeling of security.

Healthy living

Robust

Waterproof

Smart construction

One decor, three construction methods

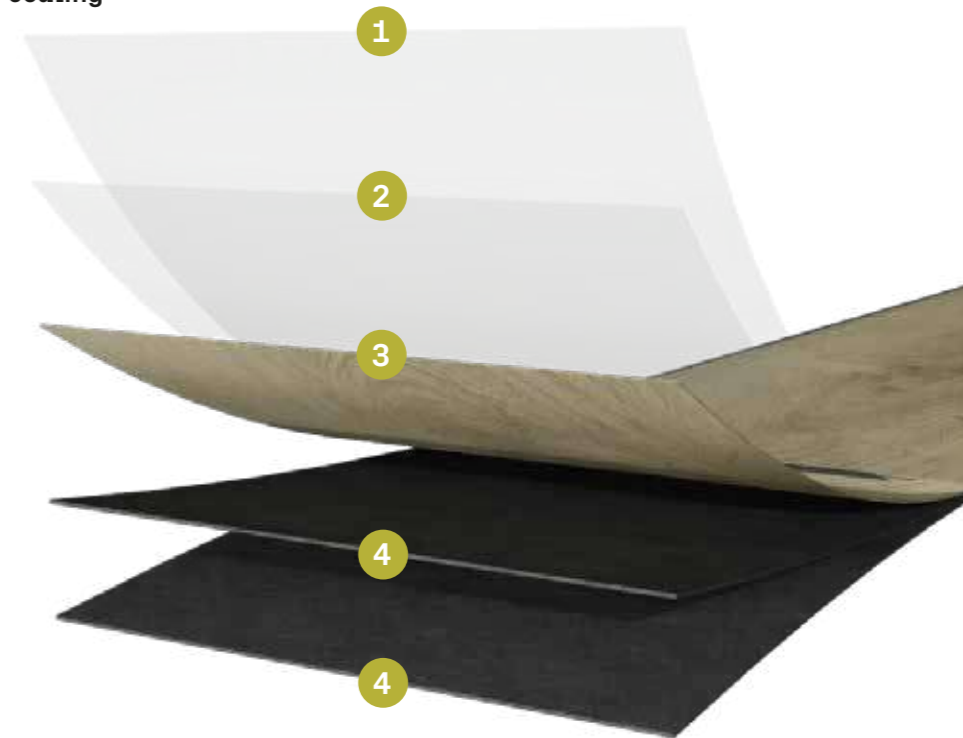

*Information sur le niveau d'émission de substances volatiles dans l'air intérieur, présentant un risque de toxicité par inhalation, sur une échelle de classe allant de A+ (très faibles émissions) à C (fortes émissions).

FOR PROFESSIONAL GLUE-DOWN INSTALLATION

Pro

- 1 Transparent, hard-wearing PU-coating
- 2 Transparent wear layer with embossed structure
- 3 Printed decor layer
- 4 Double LVT middle layer

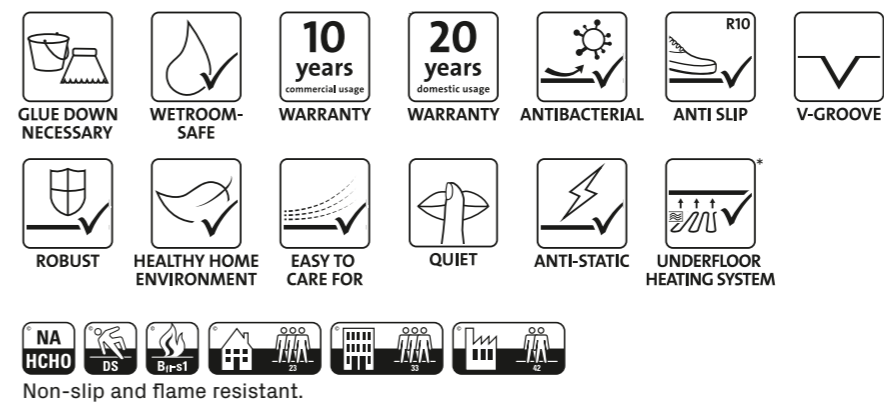

THE 3-IN-1 SYSTEM

One design, three smart options

The New Generation of Sōya Design vinyl flooring offers you 12 different designs. And in a wide variety of colours and formats. Your floor for your vision and your very own home. You are also in good hands with us technically. You can obtain your chosen design in

three different versions. This ensures you get the best solution for every room situation and substrate condition. Simply beautiful and simply smart.

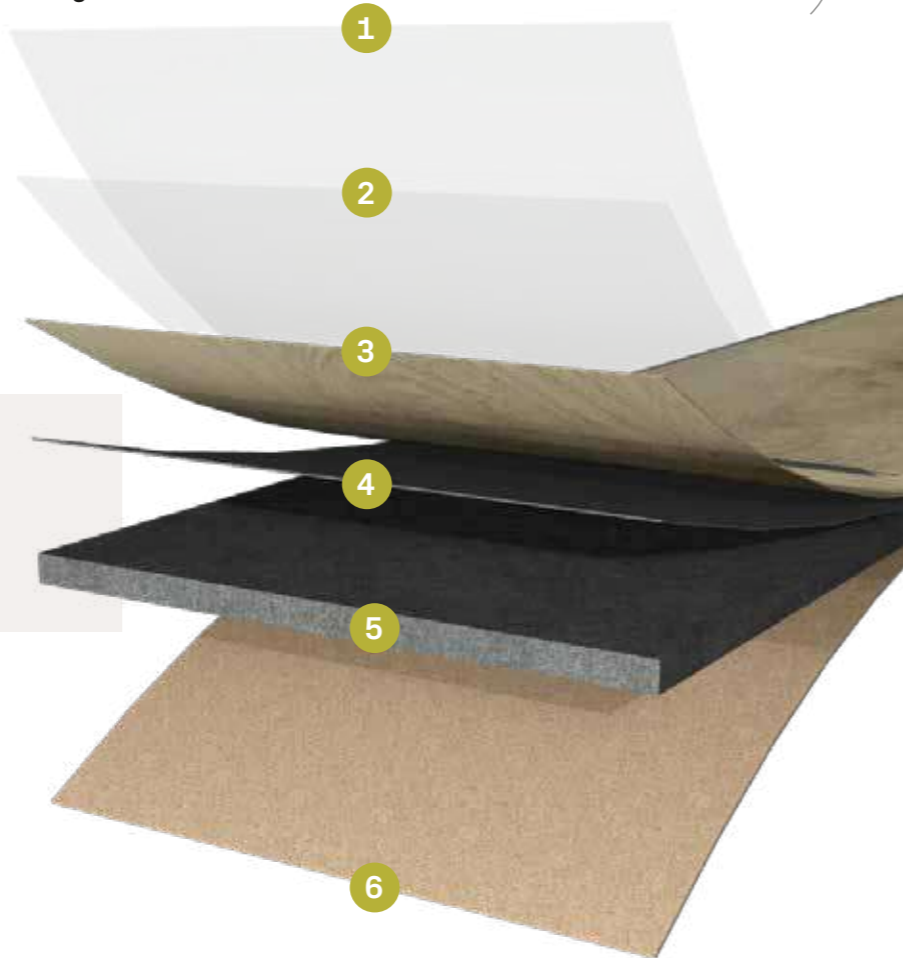

* Suitable for water-based and electric underfloor heating systems. Heating systems with reverse cycle cooling must be fitted with an automatic control unit for dew point regulation. Only suitable for electric surface heating systems fitted with gentle warm-up technology and a control unit for automatic dew point regulation.

FOR THE COMFORTABLE CHOICE

NEW Comfort SEAL

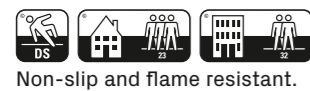

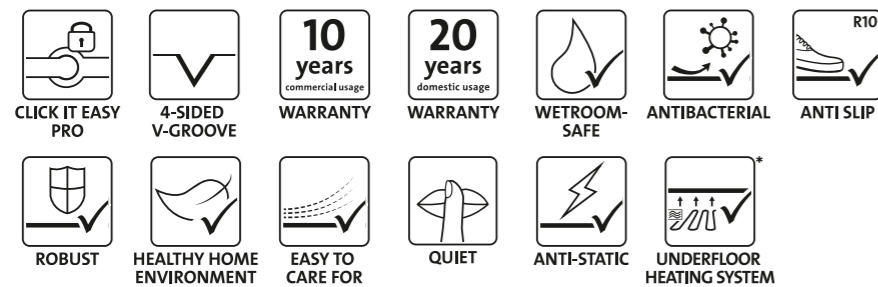

- 1 Transparent, hard-wearing PU-coating
- 2 Transparent wear layer with embossed structure
- 3 Printed decor layer
- 4 LVT middle layer
- 5 HDF baseboard
- 6 Cork impact sound insulation

Good to know:

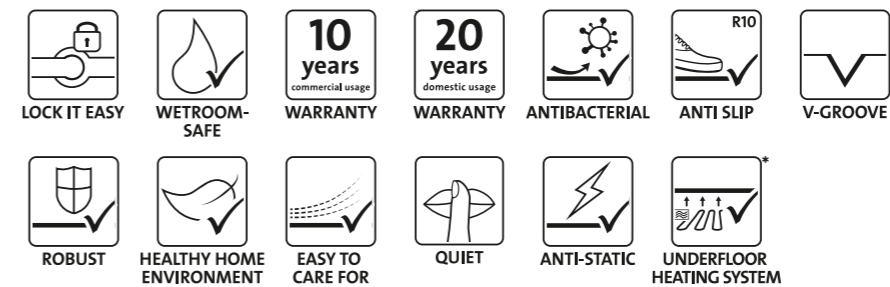

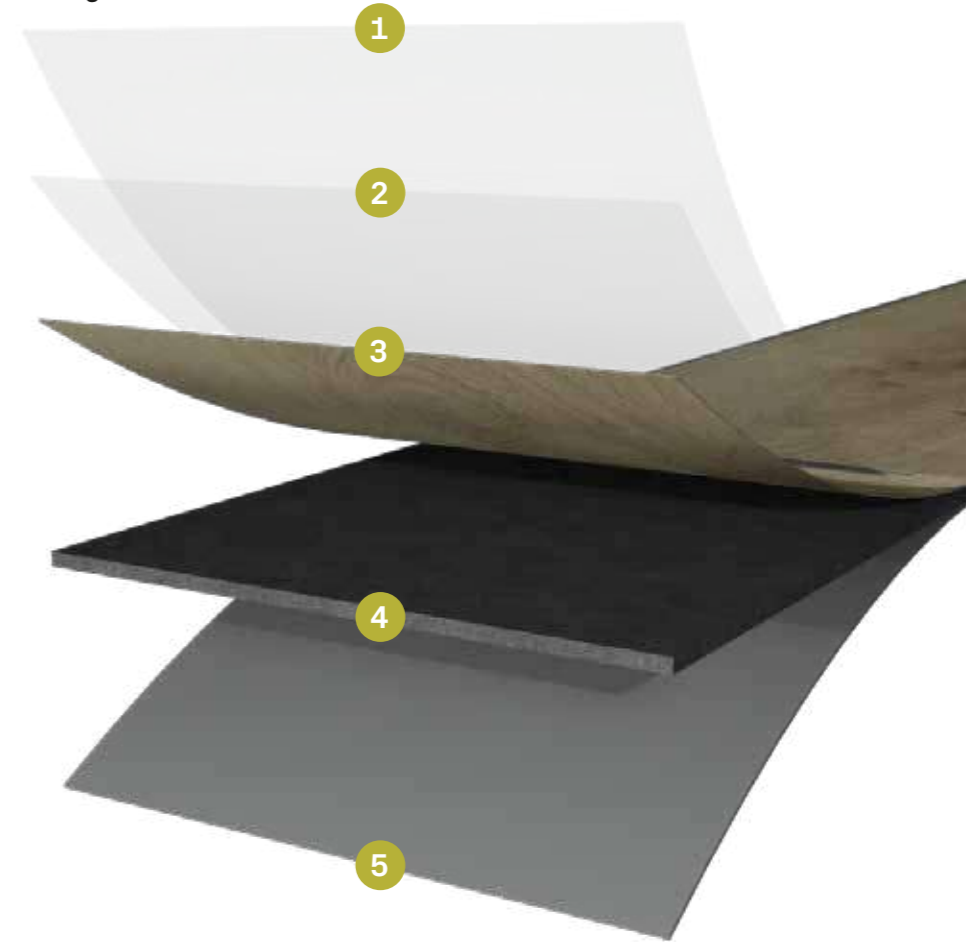

From 2024, all Comfort articles will be equipped with SEAL technology.

THE STRONG FLOOR

NEW Solid

- 1 Transparent, hard-wearing PU-coating
- 2 Transparent wear layer with embossed structure
- 3 Printed decor layer
- 4 Rigid baseboard
- 5 Impact sound insulation

* Suitable for water-based and electric underfloor heating systems. Heating systems with reverse cycle cooling must be fitted with an automatic control unit for dew point regulation. Only suitable for electric surface heating systems fitted with gentle warm-up technology and a control unit for automatic dew point regulation.

MY VIRTUAL FLOOR

My Room Studio

With our virtual Room Studio you can view all of our floors in your own home. Here and now. Just use your smartphone. As soon as you are in the Room Studio you have two options:

- 1 You can either take a picture of your room with your smartphone and select your preferred floor, which you lay virtually.
- 2 Or you can select room images from our gallery and virtually lay your preferred floor there.

With our virtual Room Studio you can look at all of our floors in the comfort of your own home either on your laptop, tablet or desktop computer. Due to the size of the display, this is sometimes the better alternative. Just click on the "Room Studio" button on the right-hand side of the screen.

Insert your own room photo, take out the old floor and experience the new floor in your own room!
